

Personal details

Name
Joshua Pritchard

Email
jpgde03@gmail.com

Date of birth
16/10/2003

Gender
Male

Nationality
GB

Languages

English Native speaker

Skills

Communication	Average
Mechanic Design	Skilful
Level Design	Average
Teamwork	Skilful
Visual Scripting	Skilful
Source Control	Average
Documentation	Skilful
Prototyping	Experienced
3D Modelling	Beginner

Hobbies

Tabletop RPG's, Industry news and interviews, media analysis, E-Sports and the Fighting Game Scene, Drumming, Merchandise Collecting, Video Game Archival and Preservation

Joshua Pritchard

Relevant Experience

Game Design and Mechanics

Sep 2022 - Jan 2023

I had to make a pitch presentation for a mock game based around a movie released from 200-2009. This taught me how to properly document my work, level design theory, basic skills in designing mechanics and how to properly articulate my vision.

Sep 2023 - Jan 2024

Games Development

This module had us work in teams of four to develop a playable prototype of a top down action adventure game. I was responsible for the design and implementation of menus and the level design and implementation of said level. This allowed me to better my level design skills but also increase my familiarity with using Unreal Engine 5 and plugins. It also taught me the value of playtesting and skills to implement playtester and teammate feedback into my work.

Journeyman

Jan 2024 - May 2024

In this module, I was part of a twenty person team designed to make a fully playable demo of a game resembling Tunic (2022). In this module, I was responsible for designing the enemy NPC's, the Boss that the player faces and the level design and implementation of dungeons in the demo. This module was very important as it allowed me to work in a larger team environment with people undergoing other disciplines. It also taught me how to better work with others in Unreal Engine 5 using tools like GitHub for source control, specifically on the implementation and using systems such as sublevels to have it so that multiple people can work on the same level at once however their work will not be lost.

Education

BA (Hons) Undergraduate Games Design

Sep 2022 - Present

Teeside University, Middlesborough, UK

HBO

BTEC Games Development

Sep 2020 - Jun 2022

Durham Sixth Form Centre
